DETAILED ACTION

Allowable Subject Matter

Claim 17 is allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest the steps of "transmitting...", "recognizing...", "calculating...", "transmitting...", "transmitting...", "transmitting...", "appending...", and "retaining...", as recited in claim 17, in combination with a numerical control apparatus and peripheral devices including at least one of a servo amplifier, a spindle amplifier and a remote I/O unit, and in further combination with the remaining features and elements of the claimed invention.

The "retaining" step of claim 17 is interpreted to constitute a data "storing" step, which in turn constitutes a tangible final result.

The "calculating" step of claim 17 contains some terms ("the number of the peripheral devices", "the transmission timing", "the number of model codes", "the order of model codes") that may not be considered to have *explicit* or *verbatim* antecedent basis. However, the failure to provide explicit antecedent basis for terms does not always render a claim indefinite. If the scope of a claim would be reasonably ascertainable by those skilled in the art, then the claim is not indefinite. > *Energizer Holdings Inc. v. Int 'l Trade Comm 'n* , 435 F.3d 1366, 77 USPQ2d 1625 (Fed. Cir. 2006); *Ex parte Porter*, 25 USPQ2d 1144, 1145 (Bd. Pat. App. & Inter. 1992).

Art Unit: 2125

Furthermore, inherent components of elements recited have antecedent basis in the recitation of the components themselves. See *Bose Corp. v. JBL, Inc.*, 274 F.3d 1354, 1359, 61 USPQ2d 1216, 1218-19 (Fed. Cir 2001). As such, the "calculating" step of claim 17 is considered definite.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 12/04/2006 was filed after the mailing date of the Final Office Action on 10/25/2006. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Drawings

The drawings were received on 02/26/2007. These drawings are not acceptable since they are indecipherable. There appears to have been some error in either the transmission or scanning of these drawings.

It is noted that the drawings (Figs. 20 and 24) submitted on 01/25/2007 were acceptable. However, the amendment submitted on 01/25/2007 was not entered as noted in the Advisory Action mailed 02/05/2007. Therefore, Applicant is respectfully requested to re-submit these drawings (Figs. 20 and 24) to ensure that they are properly entered.

In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Election/Restrictions

Claim 17 is allowable. The restriction requirement among inventions I-VII, as set forth in the Office action mailed on 03/20/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** In view of the withdrawal of the restriction requirement as set forth above, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
